

# Comparison of Options for a Map of Community Networks

## Goals

- Visualisation of the extent of the CN movement around the world
- Identify countries/regions/localities which are 'hotspots' for CNs, and where the 'blanks' are...
- Identify where there are active meso orgs that CNs can go to for support
- The different technologies used
- The spread of CNs over time (assuming time was a variable included in the mapping mechanism)

## Options

### MapSVG and Wordpress

Source: [MapSVG](#)

### Discourse with Location Plugin

Source: [Discourse](#) and [Location Plugin](#)
